Spanish-Italian Talk Stirs New Speculation

One of the War's big diplomatic conferences was underway in Italy today under cover of greatest secrecy. Gen Francisco Franco of Spain and his foreign minister, Ramor Serrano Soper, arrived in Italy today for a meeting with Premier Benito Mussolini. It was speculated that Adolf Hiteler or German Foreign Minister Joachim von Ribbentrop also might be present. But not a word of news concerning the Thomas Bakery of Detroit, escept injury about 10:30 a.m., to-London believed the conference was underwayd to the transmitted from Rome.

Here are FOUR NEW, ADDITIONS to the BUICK SPECIAL Line that Compact Motorcar Bigness into Handy Size

Time was when you measured a car's ability and standing by the yardstick distance from bumper to bumper.

Not since Buick made ready the four new additions to its 1941 SPECIAL series that are built for big-car travel tastes — and small-car garages!

They are cars to take the measure of almost anything on the road in the lift and life of their 115-hp. Buick FIREBALL

luxury touches, with the unrivaled com-fort of Buick's all-coil springing and steady-going roadability

But bumper to bumper they are shorter— so they fit your garage, park like a bicycle and fit through traffic with ridiculous ease.

And they go farther on every gallon farther, even, than other Buicks.

So you can't take their measure with a yard-stick.

You've got to measure them by what they do for you — in the easier handling, the bigger thrill, the extra convenience they add.

And when you hear the prices on them—
prices made lower by their new compactness—you'll find they
measure up plenty
BIG in the dollar-fordollar value they put
within your reach.

to the world threads reports of travelers. Japan is in the fourth year of a futise war in China which is impoverishing the country. There has been a shift of population from farms to dities for war industry work, a million having migrated to Tokyo alone from the countryside.

Food and feed sufficient short for the civilians not only because there are fewer farmer that also because much of the feed is taken for the horkes and mules of the army. The total supply of milk as a result is tragically less than normal. Eggs are grown; scarce. The domestic production of rice is not sufficient to provision the army and meet domestic needs. Heavy imports of rice from Siam and India so far have saved the day in that respect.

But for other imports of apan is in sorry shape. Sugar is severely rationed. Gasche is scanty. So too is rubber. Also cotton. The most st leng scarcity industrially is in the metals. And to top off a meeries of the Japanese the supply of water is dwindling. The reservoirs are running low. It is contended by the authorities that a drought is to blame, but a more like use of water by moder, works, chemical works.

Dewey's Strength

An early indication of the strength of Thomas Dewey in his effort to line up 2015 York in his next Presidential expedition can come up it the choice of the Republicans for a nominee for Congress of succeed the late Kenneth Simpson. This vacancy will be fill at a special election.

turally incline to the 'vi' so that the problems of economic depression have been sold and that America is well along the road to an era of giv'd times and plenty.

But is this prosper by?

Many business met think not. They see the deficit spending, the inevital r high taxes, the curtailment of profits and the concentration upon armament construction as negative factors which while in some respects momentarily stimulating, do not con situte the basis of a sound national economy.

economy.

Of course, the oblivations of defense cannot be dodged. The country must stard shoulder-to-shoulder for the advancement of its own stety and security.

But the permanent of present benefits will be contingent upon carrying this spirit of united effort into the peacetime pursuits that are sure to emerge from the mael strom of conflict. Am jca can be made enduringly strong. But it can be done only by close adherence to the American way and by the use of American methods.

Carelessness Causes Accidents

Carelesaness Causes Accidents
I have long preached that most
accidents are due to carelesaness,
not ignorance. The tragedy of the
roach powder deaths in Pittsburgh illestrates it. Last year I
said in this column that sadium
fluoride is a good roach powder
because it is almost harmless for
man. Manufacturers wrote me
protesting. All sedium fluoride
should be labelled "Poison" on the
can. Agreed But naturally one
must assume that everybody will
callie that if sodium fluoride will
ill roaches, enough of it will kill
a man. Small amounts are not

poissonous, but in Filewarga pounds were dumped in the four barrel.

Cases of roach and rat powder poisoning are not due to ignorance but careleasnes. They should have known better.

One of the hazards of modern life during the winter and springs months is carbon monoride gas pouring from the exhaust of a motor in a closed garage. Everybody knows this. They know it takes very little, but still the accidents occur. They will warm up the motor with the door closed before going out.

Conservative Drivers Safest

Conservative Drivers Safest

Safety councils have found that most automotile accidents occur with drivers of the age group between 15 and 20. Their actilit far higher than that of the drivers in the higher say erroups. But it is their very skill that leads them into trouble. They take chances. They want to show off. They get impatient at the more conservative drivers in traffic. The drivers between 30 and 50, in fact up to 60 or over, show a smaller accident record. They have far less skill. But they realize their deficiencies, and take fewer chances. They are less likely to be in a hurry and less likely to get angry. They are wholesomely afraid. So they get by unscathed more often. "They know better" and set on the knowledge.

Continued from Page Four—Abe b&prowed a book from Josiah Crawford. The book was badly soiled olfe hight by the rain that beat in through the cracks of the cabin, Abe went to the owner and volunteered to work in order to pay for the book.

When he was twenty, Lincoln kept a store, and he discovered one evening that a woman had paid him six cents to the woman, aring the writed six miles to pay back the six cents to the woman, earning the title, "Honest Abe." No university degree could entait in value. Let parents lead children to want to be honest when they don't have to be.

Of the sense of humor of Lincoln's second mother, Garl Sandburg writes! "His step-mother told him she didn't mind his bringing dirt into the house on his feet; she could secur the floor; but she asked him to keep his head washed as he'd be rubbing the dirt on her white-washed rafters. He put barefoot boys-to wading in a mud puddle near the horps trough, picked them up one by one, carried them to the house upside down and walked their muddy feet across the ceilling. The mother came in, laughed an hour at tha foot tracks, told Abe he ought, to be spanked—and he cleaned the ceiling so it looked new." Have you ever seen more commendable behavior in any parent?

She understood and so did he had a right to de unaccountable things."

EXCITING SERIAL BY

Allen Eppe:

Two young men in a mountain hide-away grimly resolved to have nothing to do with the fair sex. It seemed a perfect life-and then Joel had to find a girl with a sprained ankle right in their cabbage patch!

Here is one of the delightful situations which make "Eveless Eden" one of the brightest fiction-hits of the year-a serial to keep you guessing from start to finish!
